

Beach Porter User Instructions

Our Beach Porter beach backpack boogie board bag is a multi-functional beach backpack and boogie board bag, depending on how you wish to use it – alone or attaching it to your beach chair.

Beach Porter Pocket Uses and Loading

NOTE: Load your Beach Porter pockets before wearing on your back or mounting boogie board and attaching to your chair.

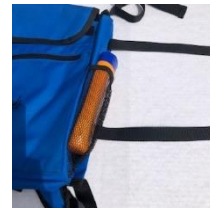

Cell Pocket

Using Beach Porter as a backpack

To use in backpack mode, simply slip your arms through the shoulder straps,

secure the chest strap snap buckle together

and pull on the chest straps to tighten.

To adjust the shoulder straps, pull down on the straps to your comfort level.

To attach the Beach Porter to your chair, use the two snap buckles on the upper left and right corners of the Beach Porter. Slip one end of the snap buckle through the upper chair frame, snap the buckle and pull on the strap to tighten the strap.

NOTE: Your chair needs to have an open space in the upper left and right corners of the frame to attach the Beach Porter to your chair. If your chair has fabric around the corners it will not attach. In this case use the boogie board straps to mount your chair to the Beach Porter and use the Beach Porter shoulder straps to wear it.

Mounting one or two boogie boards

After loading the Beach Porter with all your beach items lay it out flat and extend the boogie board mounting straps

Place the boogie board over the Beach Porter so it is centered over the top, bottom, left and right sides.

Snap the boogie board mounting strap buckles together and then while pressing down on the boogie board pull the left and right-side adjustment straps at the same time to tightly secure the boogie board to the Beach Porter.

The Beach Porter is now loaded and ready to wear on your back or mount to your beach chair.

GO TO THE BEACH BETTER!

Use the same instructions for two boogie boards

Other Beach Porter Uses

While we designed the Beach Porter to simplify getting to the beach with your hands free, we've discovered it works really well to carry skim boards, skateboards and as a great sleepover bag for your kids.
